## ABOUT US

The Joint Technological Centre UPM Accenture AI.nnovation Space in Artificial Intelligence, established as an innovation centre within the Polytechnique University of Madrid (UPM), is a reference space in the application of science and innovation in cases of real businesses in the field of Artificial Intelligence. Its duty as a knowledge promoter and as a way to expand results of innovation, and its transmittion to the market makes it the only centre in the European environment. It is a pioneer in the development of a partnership model so far, bringing together the university and enterprises in the field of Artificial Intelligence (AI).

## Centres connected to AI.nnovation Space:

AI.nnovation Space is connected to the Accenture Madrid Liquid Studio, a centre with more than 100 professionals and in which costumer projects and hubs of new technologies coexist in a liquid environment. The Accenture Madrid Liquid Studio is connected to a network of 21 Liquid Studios of Accenture distributed around the world.

## WHAT CAN YOU GET FROM US?

Your idea will reach those who need it. If you have a project in mind or if an idea has been generated throughout the development of your degree, master's or PhD studies and you want to put it into practice, AI.nnovation Space will provide you with the necessary support to make that idea reach the market.

## HOW WE CAN HELP YOU?

We will help you with financial support, organizational structure and contact with the market and enterprises. If you have an idea, but you cannot fund it, the centre of Accenture will offer you complete support to develop it, from the embryonic stage to its arrival to the market.
