General Assignment Criteria

Capacity Building and Sustainability

The assignment(s) must clearly focus on capacity building (of local beneficiaries) e.g. on the application of ICT. An assignment which concentrates on e.g. ICT product delivery, like set up of a network or creation of a website, without close collaboration with local staff does not qualify. The target group of a particular assignment should be able to independently apply e.g. ICT for their purposes after the university volunteer leaves. Ensuring sustainability, further promoting volunteerism, as well as raising awareness about the Millennium Development Goals in the country of assignment are key criteria, which are common to all assignments.

Host Organization and Living Conditions

The host organization needs to demonstrate that it will provide a necessary enabling environment for the university volunteers so they can be productive from the start and sustain a positive performance throughout their assignment. This includes the provision of necessary (e.g. computing) equipment and if need be, connectivity. It also includes the identification of a direct supervisor for the volunteer.

After completion, please return this questionnaire to your UNV Country Office by fax, mail or email. Thank you!
