CULTURAL HERITAGE

“FÉLIX CAÑADA” ART GALLERY

Félix Cañada Guerrero (Segovia, 1925), a mining engineer and scholar of art, is the patron of this art gallery. The art gallery is the fruit of a donation of over one hundred paintings and sculptures dating from the 16th to the 20th centuries to the Fundación Gómez Pardo to further enhance the humanities education of the School of Mining engineers. A selection of the most significant works from this permanent collection is on display next door to the 19th century building housing the School of Mining.

MINING HISTORY MUSEUM

The Don Felipe de Borbón y Grecia Mining History Museum watches over a vast testimony to Spain’s and Europe’s rich mining history from the 18th century onwards and also to the connections between the School of Mining and mine workings. Many of its mineralogical pieces come from donations or commissions by the leading mines working throughout the 19th century (and part of the 20th century), most of which are no longer in operation.
