

NORMALIZACIÓN DE LA FIRMA EN ISI Y SCOPUS

La diversidad de formas en las que muchos investigadores introducen en sus escritos los nombres de los centros de trabajo, de las áreas científicas y de sus propios apellidos, conduce en muchas ocasiones a perder información muy valiosa, en perjuicio del investigador y del análisis de los datos con fines de política científica.

Los grupos de investigación EC3 de la Universidad de Granada y Análisis Cuantitativos de Ciencia y Tecnología del CINDOC-CSIC ha elaborado para la FECYT el documento: **Propuesta de manual de ayuda a los investigadores españoles para la normalización del nombre de autores e instituciones en las publicaciones científicas**. Se trata de un documento que pretende reflejar unas mínimas recomendaciones para fomentar fórmulas de firma normalizada de los investigadores españoles en sus publicaciones científicas, tanto en lo que se refiere a nombres personales como institucionales.

http://www.accesowok.fecyt.es/wp-content/uploads/2009/06/normalizacion_nombre_autor.pdf

Es importante firmar siempre de la misma manera y evitar el uso variable de uno o dos apellidos

Cómo modificar nuestra firma en ISI Web of Science

Para solicitar cambios en la base de datos Web of Science de ISI, hay que cumplimentar este formulario ("Request a data change"):

<http://ip-science.thomsonreuters.com/techsupport/datachange/>

DATA CHANGE & MISSING ARTICLE/JOURNAL ISSUE REQUEST

IDS es el código que identifica un artículo. Se puede encontrar al final del registro.

Required fields *

IDS/TGA/Patent Number *

Derwent Accession Number

DATA CHANGES FAQs

- How do I submit a data change request?
- In which products can a record be changed?
- What types of data changes can be made?
- The data change web form asks for an IDS, TGA or Patent number? What are these?
- How long will it take for my data change to be processed?
- In a Cited Reference search, my article is indexed as 'In Press'. Can this be changed to the full reference?
- Some data change requests can not be implemented, why is this?
- How do I get a record changed in CABI®, Food Science & Technology Abstracts, INSPEC, Medline or the Chinese Science Citation Database?

Se debe rellenar un formulario por cada artículo cuyos datos deseemos cambiar.

También se puede usar la herramienta **ResearcherID** (<http://www.researcherid.com>) para unificar toda la producción científica aún cuando se usen varias firmas.

Integration with Web of Science:
Information in ResearcherID will can be shared with Web of Science to make papers by a specific researcher easier to find. [Learn more](#)

ResearcherID is a global, multi-disciplinary scholarly research community. With a unique identifier assigned to each author in ResearcherID, you can eliminate author misidentification and view an author's citation metrics instantly. Search the registry to find collaborators, review publication lists and explore how research is used around the world.

To determine which author names should be grouped together under a single identifier number, the Scopus Author Identifier uses an algorithm that matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. [About Scopus Author Identifier](#)

Profile: Alonso, Fernando A. 60

1	Cooperation between expert knowledge and data mining discovered knowledge: Lessons learned	Alonso, F., Martínez, L., Pérez, A., Valente, J.P.	2012	Expert Systems with Applications 39 (8) , pp. 7524
2	Supporting end-user development through a new composition model: An empirical study	Lizcano, D., Alonso, F., Soriano, J., López, G.	2012	Journal of Universal Computer Science 18 (2) , pp. 143
3	F 2TE 3: A transparent semi-monocoque VIP envelope	Alonso, L., Bedoya, C., Lauret, B., Alonso, F.	2011	Applied Mechanics and Materials 71-78 , pp. 594
4	Solving incidents in telecommunications using a multi-agent system	Paolino, L., Paggi, H., Alonso, F., López, G.	2011	Proceedings of 2011 IEEE International Conference on Intelligence and Security Informatics, ISI 2011 , pp. 303
5	A new end-user composition model to empower knowledge workers to develop rich internet applications	David, L., Alonso, F., Soriano, J., Genovaeva, L.	2011	Journal of Web Engineering 10 (3) , pp. 197
