Software

Research and innovation areas

- Salud y bienestar
- Tecnologías digitales, Inteligencia Artificial, ciberseguridad, 5G, robótica

Where?

Multimedia and Acoustics Applications (GAMMA) Software and Multimedia Systems Technologies for Sustainability Research Centre (CITSEM)

Software description

The program is a demo for the use of K2UM (Kinect to Unity Middleware) and the Unity 3D K2UA Unity asset (Kinect to Unity Asset) for an application with rehabilitation exercises for people with motor functional diversity. The program consists of four exercises to be done with movements that are recorded using the Microsoft Kinect V2 camera.
