

## Seguimiento de la producción científica UPM en la Web of Science

La [Web Of Science](#) (WOS) es una plataforma de la empresa Thomson Reuters basada en tecnología web y formada por una amplia colección de bases de datos bibliográficas, citas y referencias de publicaciones científicas de cualquier disciplina del conocimiento –científico, tecnológico, humanístico y sociológico– desde 1945.

Hasta enero de 2014 esta plataforma era conocida como “Web of Knowledge”, pero tras su actualización en esta fecha Thomson Reuters ha decidido renombrarla pasándola a llamar **Web of Science**. A su vez, la base de datos que hasta ahora se llamaba “Web of Science” pasa a llamarse **Web of Science Core Collection** que es la utilizada para hacer el seguimiento de la producción científica de la UPM.

En el gráfico siguiente se presenta la comparativa 2013-2014 de los documentos de investigación de la Universidad Politécnica de Madrid (UPM) dados de alta en la Web of Science (WoS) acumulados hasta el mes actual. Hay que señalar que la fecha que se considera en relación con cada artículo no se refiere a la fecha de publicación del mismo sino a la de su incorporación a la base de datos de la WoS.

## Documentos de investigación de la UPM incorporados a la Web of Science
