UNIVERSIDAD
POLITÉCNICA
DE MADRID

Acting, in my capacity as Rector of the Universidad Politécnica de Madrid (UPM), on behalf of the university's educational community, it is my pleasure to introduce you to what is Spain's leading higher education institution in the fields of engineering, architecture, sports science and fashion design.

Guillermo Cisneros Pérez
Rector

UPM is the country's largest technical university, and an influential European higher education institution. I am proud to say that the UPM stands out for its intensive research activity, its internationally accredited and recognized academic excellence, and its interweaving into the fabric of national and international industry, which are its mainstays as a public higher education institution.

Around 40,000 students are training on our 4+1 university campuses distributed across the city of Madrid. UPM also has research centres and institutes where research groups are working on many projects that also serve to train our students at the cutting edge of their fields and where they

participate in the generation of new knowledge. Thanks to the effort of UPM's academic and research staff, administrative staff and alumni around the globe, UPM is acknowledged to be one of the best 75 global universities for engineering and architecture and ranks within the world's top 94 in terms of employability.

UPM is a public university committed to and working towards the 17 Sustainable Development Goals set up by the United Nations General Assembly. UPM is open to anyone wanting to learn, research and share their talent in the branches of knowledge in we specialize. I invite you to learn more about us in this presentation.

UPM Facts and Figures

- 16 schools, 1 faculty and 1 affiliated college
- Almost 2,900 teaching staff and researchers
- Over 30,000 undergraduate students (2020/21)
- 6,500 master students (2019/20)
- Over 2,000 PhD students (2020/21)
- Budget of 400 million euros

- 55 accredited bachelor degree programmes
- 95 accredited master degree programmes
- 18 accredited combined bachelor and master degree programmes
- 44 accredited PhD programmes
- 238 UPM academic programmes (executive master, expert specialization and lifelong training programmes)

- 96 double degree programme agreements with international universities
- 2,500 agreements with international universities
- International exchanges by over 1,800 UPM students every year
- 19 cooperation for development groups

- Over 6,500 work placements in the 2020/21 academic year
- 17 sports clubs
- A total of 160 student associations

- 202 research groups
- Funding of over 39 million euros from regional, national and international projects (2017)
- Funding totalling 242.6 million euros from projects with industry from 2008 to 2018
- 75 university-industry partnerships
- Over 292 actúaUPM-supported start-ups since 2004 with a three-year survival rate of over 70%
- 293 H2020 project awards to date, including 112 projects coordinated by the UPM
- UPM is a core partner of the EIT Digital, Health, Raw Materials and Climate Knowledge and Innovation Communities

- 41 internationally accredited degree programmes

The UPM is one of Europe's top universities, renowned for its academic and research quality, innovation and close ties with society. The UPM offers 55 accredited single or joint bachelor degree programmes and its degree programmes are highly rated by industry.

With over 36,000 students and 2,900 academic staff, its activities (teaching, research and technology transfer) focus on all branches of engineering, architecture, sports science and fashion design.

UPM in the rankings

For the fifth year running, the UPM is one of the 100 best universities in the world in the field of engineering and technology*

UPM has 3 degree programmes within the top 50 and 6 within the top 100 in the world*

- Engineering Civil & Structural
- Architecture
- Engineering – Mineral & Mining
- Engineering Mechanical, Aeronautical & Manufacturing
- Agriculture & Forestry
- Engineering Electrical & Electronic

*QS World University Ranking (2021)

UPM has a degree programme within the top 6 in the world*

- Civil Engineering

*ARWU-Shanghai Ranking (2021)

UPM is the top-ranked Spanish technical university for employability*, ranking 94 in the world

*QS Employability Ranking (2022)

According to the 2021 QS World University Ranking by subject of interest, the Universidad Politécnica de Madrid is one of the 100 best universities in the world in the field of engineering and technology. UPM is also one of the best world universities for employability, ranking as the top Spanish technical university.

QS WORLD UNIVERSITY RANKING (2021)

Analysing 4000 institutions, where the UPM is ranked 75 in the world in the field of engineering and technology. By disciplines, the UPM's world ranking is as follows:

- Engineering Civil & Structural: 35
- Architecture: 37
- Engineering – Mineral & Mining: 38
- Engineering Mechanical, Aeronautical & Manufacturing: 68
- Agriculture & Forestry: 68
- Engineering Electrical & Electronic: 79
- Computer Science & Information Systems: 125
- Environmental Science: 101-150
- Art & Design: 151-200
- Materials Science: 201-250
- Mathematics: 201-250
- Engineering Chemical: 251-300

QS GRADUATE EMPLOYABILITY RANKING (2022)

The UPM is ranked 94 in the world for employability.

ARWU-SHANGHAI (2021)

Analysing over 1,200 universities, where the UPM's world ranking by disciplines is as follows:

- Civil Engineering: 6
- Instruments Science & Technology: 48
- Agricultural Sciences: 51-75
- Mining & Mineral Engineering: 51-75
- Transportation Science & Technology: 101-150
- Water Resources: 101-150
- Mechanical Engineering: 201-300
- Telecommunication Engineering: 201-300
- Food Science & Technology: 201-300
- Mathematics: 201-300
- Energy Science & Engineering: 201-300
- Biological sciences: 201-300
- Computer Science & Engineering: 301-400
- Electrical & Electronic Engineering: 301-400
- Environmental Science & Engineering: 401-500
- Chemical Engineering: 401-500

TAIWAN (2021)

Analysing over 800 universities, where the UPM's world ranking by disciplines is as follows:

- Civil Engineering: 129
- Computer Science: 161
- Agricultural Sciences: 166
- Plant & Animal Science: 185
- Mechanical Engineering: 194
- Electrical Engineering: 224
- Environment/Ecology: 251
- Chemical Engineering: 263
- Materials Science: 401-500
- Physics: 451-500
- Social Science: 451-500

INTERNATIONALLY
RENOWNED UNIVERSITY

International Accreditations

The UPM is the Spanish university with the most internationally accredited engineering and architecture degree programmes. UPM degree programmes hold over 50 international accreditations by ABET, NAAB, EUR-ACE or EURO-INF. Awarded by independent European and US agencies, these quality labels improve the prospects of its graduates on the international labour market by certifying that the UPM's training process meets the standards of the best universities in the world

41 Internationally Accredited Degree Programmes

ABET

What is ABET?

The highly reputed Accreditation Board for Engineering and Technology (ABET) is a US non-profit non-governmental organization that accredits higher education or post-secondary education programmes in applied science, computer science and engineering and technology disciplines.

EUR-ACE®

What is EUR-ACE®?

The EUR-ACE® label is a certificate awarded by an agency authorized by the European accreditation network ENAEE to a higher education institution with respect to a bachelor or master programme evaluated according to a number of standards defined according to the principles of quality, relevance, transparency, recognition and mobility governing the European Higher Education Area.

NAAB

What is NAAB?

The National Architectural Accrediting Board (NAAB) is the only agency authorized in the United States to accredit professional architecture degree programmes.

EURO-INF

What is EURO-INF?

The EURO-INF label is a certificate promoted by EQANIE and awarded to a higher education institution with respect to a bachelor or master programme evaluated according to a number of standards defined according to the principles of quality, relevance, transparency, recognition and mobility governing the European Higher Education Area.

UPM at the forefront of innovation in Spain

POLITÉCNICA

UNIVERSIDAD POLITÉCNICA DE MADRID

PARTICIPATION IN THE EUROPEAN INSTITUTE OF INNOVATION AND TECHNOLOGY

The UPM is a core partner of the EIT Digital, Health, Raw Materials and Climate Knowledge and Innovation Communities, where its participation since 2014 is worth over 7.1 million euros

QUALIFIED RESEARCHERS

On average, 2 to 3 researchers are hired under Ramón y Cajal contracts, five-year contracts designed to attract internationally experienced researchers with additional funding for research activities, and 7 researchers are employed under Juan de la Cierva contracts, two-year contracts for postdoctoral researchers, every year

Technology transfer activities are the source of 15% of the UPM's budget.

UPM is ranked 96th in the European Ranking of Innovative Universities

(including 3,583 EU universities)

BOOSTING R&D&I

One strategic policy line at the Universidad Politécnica de Madrid is to boost R&D&I and knowledge transfer to society. As a result of these two commitments, the UPM

ranks among the most active Spanish universities with respect to research activity and is first in terms of competitively secured funds.

The UPM is also the leading Spanish university in terms of patent awards with a portfolio of over 530 active patents.

UNIVERSIDAD
POLITÉCNICA
DE MADRID

POLITÉCNICA

Close ties with industry

R&D&I cooperation with industry is one of the UPM's strengths. It is the Spanish university that collaborates most with industry in terms of both the number of projects and funding awards and agreements. It is home to one of the most active entrepreneurship environments with over 200 start-ups over the last 10 years as part of its entrepreneurship programme.

RESEARCH STRUCTURES

- **14 research centres** (including the Plant Biotechnology and Genomics Research Centre (CBGP) which is a Severo Ochoa Centre of Excellence), 5 research institutes and 3 innovation centres.
- **69 laboratories**, registered in the laboratory network.
- A *singular* scientific and technical infrastructure (ICTS): Institute of Optoelectronic Systems and Microtechnology (ISOM).

INNOVATION

- **75 university-industry partnerships.**
- **561 patents** in force and 471 patents granted.
- Since its launch in 2004, **actúaUPM** has supported the creation of over **292** start-ups with a three-year survival rate of over 70%, businesses that have attracted investments worth over 60 million euros since 2007.

PROJECT FUNDING

- From 2012 to 2017, **761** projects received national funding (580 under the National Research Plan and 181 under other national calls) worth 83.5 million euros.
- From 2008 to 2018, industry provided funding worth **242.6** million euros for projects.

DOCTORAL PROGRAMMES

- **44 PhD programmes** (plus another under development)
- Over **2,000 PhD students** enrolled in 2019/20
- About **200 PhD thesis defences** defences per year

UPM CAMPUSES

The Universidad Politécnica de Madrid has four university campuses distributed throughout the Madrid region. With fantastic public transport links, UPM campuses are urban spaces designed for teaching and research and offering cultural and sports services to build an exceptional scientific and intellectual environment.

South Campus

Montegancedo Campus

which are home to 16 schools, 1 faculty, 1 affiliated centre, 5 research institutes and 14 R&D&I centres

Tecnogetafe

At the forefront of knowledge, it has two Campuses of International Excellence: Montegancedo Campus and Moncloa Campus, which has other member organizations, including the Complutense University of Madrid.

MONCLOA CAMPUS

UPM SCHOOLS AND RESEARCH CENTRES

- Escuela Técnica Superior de Arquitectura
- Escuela Técnica Superior de Edificación
- Escuela Técnica Superior de Ingeniería Aeronáutica y del Espacio
- Escuela Técnica Superior de Ingeniería Agronómica, Alimentaria y de Biosistemas

UPM Degree Programmes

The UPM delivers 55 single and joint bachelor programmes. Its degree programmes are highly regarded especially by industry. Language training and skills developed through co-curricular activities and professional accreditation are some of the distinctive traits of the UPM course catalogue.

The UPM also has a Leadership and Technology Centre (CLYT). The CLYT represents UPM's commitment to all-round student training. It builds upon the education students receive as part of their curriculum, providing professional training based on

the latest knowledge and terminologies used in the world of work. Ever since its creation, the UPM's CLYT has focused on personal capacity building for current and future leaders, offering training in leadership in a technological environment.

UNDERGRADUATE STUDIES

UPM bachelor degree programmes cover all fields of engineering, architecture, sport sciences and fashion design, key to modern-day society on which technological advances have a decisive impact and engineers and scientists play an increasingly important role. Renowned for its

teaching quality, the Universidad Politécnica de Madrid provides its students with an all-round scientific and technological training. Its course catalogue draws upon the excellence and experience of its schools.

UPM, a window on the world

COOPERATIVE AGREEMENTS

Around 2500 academic and scientific agreements with international universities.

DOUBLE DEGREE AGREEMENTS

94 double degree agreements with European, Latin American, US and Chinese institutions.

STUDENTS STUDYING ABROAD

Over 1800 UPM students participate in study abroad programmes every year, two-thirds under the Erasmus+ umbrella.

The UPM has two permanent international representations: UPM Representation to North America (based at Harvard University) and UPM Representation to Asia and Oceania (based at Tongji University).

UPM INTERNATIONAL

The UPM attaches huge importance to international education as a means of learning about different cultures, relating to other societies and, ultimately, rounding out student training and improving their integration into a multicultural environment.

UPM leads the Magalhaes academic exchange network, as well as cooperation between Europe, Latin America and the Caribbean.

EELISA
European University

EELISA European Universities Alliance

The Universidad Politécnica de Madrid leads the EELISA alliance. EELISA brings together a higher education community of over 180,000 students, 16,000 academic, and 11,000 administrative and service staff that will benefit from the initiatives developed across this new European network. EELISA also aspires to transform higher education and play a key role in the search for solutions to the social and environmental challenges facing European society today.

The members of the EELISA alliance, coordinated by the UPM, are the technical universities of Bucharest, Budapest, Istanbul and the Friedrich-Alexander-Universität Erlangen-Nürnberg, three French grandes écoles specializing in science and energy linked to the Université Paris Sciences et Lettres (École de Ponts ParisTech, Mines ParisTech, Chimie ParisTech), and the renowned Pisa-based Scuola Normale Superiore and Scuola Superiore di Studi Universitari e di Perfezionamento Sant'Anna.

Social commitment

19 COOPERATION FOR DEVELOPMENT GROUPS

DISABILITY SUPPORT UNIT

GENDER EQUALITY UNIT

One UPM action line is to **promote a barrier-free university** guaranteeing equal opportunities and non-discrimination of people with disabilities. Another is to **encourage gender equality policies** within the university.

The UPM also has a strong and deep-rooted commitment to solidarity and development problems. Students and scholars put their knowledge, inventiveness and creativity to the service of good causes.

Sustainability as an economic, social and environmental whole is a core concern at the Universidad Politécnica de Madrid. This commitment to energy saving and environmental sustainability underlies UPM activities in all institutional, academic, research and business partnership spheres.

UPM and SDGs

The Universidad Politécnica de Madrid places the sustainable development goals (SDGs) at the heart of its key fields of action. Within research, it aligns projects with and trains researchers in SDGs through the promotion of multi-stakeholder alliances. Within teaching, it

includes SDGs in educational programmes, having set up the MSc in Development Strategies and Technologies and launched specialized training courses on sustainable cities. Within technology transfer, it promotes SDGs through the Centre of Technology Innovation for Development (itdUPM) or development and sustainability university-industry partnerships.

In the 2018-19 academic year, the UPM launched the UPM Technology and Innovation for Sustainable Development Goals Seminars aimed at increasing the visibility of research on key issues that are part of the international sustainability agenda. Over 700 researchers and 140 research groups participated in these seminars.

The UPM Language Centre delivers a flexible offering of language courses adapted to the demands of the higher education community and organizes different language accreditation examinations. Its primary aim is to provide the

members of the UPM's higher education community with more options to improve their communication in foreign languages and offer Spanish language and culture learning opportunities to improve the integration of students and staff that visit UPM.

The UPM Language Centre is one more example of the university's international spirit and active participation in academic mobility projects inside and outside Spain.

Campus life

Life at university is much more than just studying. The UPM offers extra-curricular activities promoting culture, sports, teamwork and solidarity.

- 164 student associations
- 17 sports clubs
- UPM symphony orchestra and band

Culture

The UPM sponsors a remarkable number of both institutional and student-led cultural activities. Students organize the annual *tuna*¹ and theatre festivals. The Culture Classroom offers a host of courses and workshops, ranging from drawing and painting, through creative writing, drama, dancing or public speaking, to guided tours of Madrid.

UPM cultural events revolve around music, including its annual concert cycle held at the National Auditorium of Music, Madrid's main concert hall, together with performances by the UPM's Choir (founded over 25 years ago), and the recently established UPM Symphony Orchestra and Band.

1.- Group of university students in traditional university dress playing traditional instruments and singing serenades.

Sports

The UPM fosters sports. It has sports facilities at several schools, as well as a on the South and Montegancedo Campuses, also adapted for people with reduced mobility. Its school-based sports clubs encourage their students to partake of physical activity. Every year a large student contingent from the Universidad Politécnica de Madrid participates in the Spanish Higher Education Championships, and the UPM is high up in the medal table.

Associations

Student associations are the most important driving force behind culture, leisure and sports at UPM. There are over 160 associations, whose members cultivate personal relationships, develop their creativity and take pleasure in the wide-ranging activities that they organize.
